

Ithiel Jones Fundar

Web Developer

A Web Developer and Programmer based in the Philippines. I am passionate about designing, developing user-friendly websites, and programming. I have the skills to create a quality website for individuals and organizations or to improve existing websites using the latest techniques and trends.

Work Experience

SA

Web Developer ShoreAgents

09/22 - 01/25

- Developed and maintained our company's website using WordPress and Elementor.
- Integrated ActiveCampaign CRM with Google Tag Manager and Analytics to optimize automations and track website events for potential clients.
- Enhanced our online visibility through advanced technical SEO strategies with YoastSEO.
- Developed a custom ChatGPT-based AI Assistant and Article Generator using OpenAI API, Node.js, Langchain, and Strapi as the database handler.
- Implemented our own chatbot assistant with Flowise, integrated with OpenAI and Langchain, which is trainable and answers questions based on our own database.
- Automated blog post publishing using Integromat/Make, including featured image generation integrated with Canva.

FST

Web Developer Intern FilAm Software Technology, Inc.

09/2021 - 11/2021

- Became an Intern at FilAm Software Technology and gained experience that adds up to my credibility as an aspiring professional in the field

Bachelor of Science and Information Technology with Area of Specialization in Web Development

Holy Angel University

Year of Graduation: 2022

STEM

Science, Technology, Engineering, and Mathematics Strand

Holy Angel University

Year of Graduation: 2018

Certification

OpenAI & ChatGPT API's: Expert Fine-tuning for Developers, 09/01/23

I learned the fundamentals of fine-tuning pre-trained models, including how to assess their suitability for a given problem. Recognized various types of pre-trained models, understanding their strengths and weaknesses. And I had hands-on experience in preparing data for fine-tuning through tokenization and encoding, and I applied this knowledge to fine-tune a pre-trained model tailored to a specific Natural Language Processing (NLP) application.

Javascript Essentials 1, 10/01/23

Learned more about the syntax of the core JavaScript; can work with variables, operators, flow control, and functions; know the basics of data types system; think algorithmically and can analyze problems using a programmatic conceptual apparatus; and can design, develop, and improve simple JavaScript programs.
